EXPLANATORY NOTES

1. To complete your medical examination you must go to your doctor, have your medical examination and sign this form in the presence of the doctor. When the form is completed by your doctor you must submit it to the National Driver Licence Service with your learner permit/driving licence application **within one month of the date of the medical examination.**
2. For medical fitness standards, vehicles are classed as being in Group 1 or Group 2. This table describes which vehicles are in Group 1 and in Group 2. Further information on each licence category can be found online at ndls.ie and on the licence application form. A higher standard of medical fitness is required of those drivers who hold licences for Group 2 vehicles. Please note that Group standards apply to all categories of vehicles within that Group. Individual categories should not be marked on the table above.
3. A person driving a Group 2 category vehicle must be certified as medically fit at least every five years.
4. Applicants over 75 years of age can only be certified as being fit to drive for either one or three years.
5. Where appropriate the doctor may engage the services of other medical and driving professionals (e.g. consultant, occupational therapist, optometrist, on-road driving assessor) to inform their completion of this form.
6. Please have your Doctor initial any alteration or change made in completing this form. This is important in assessing the validity of the document presented.
7. **For more information on medical fitness standards see Medical Fitness to Drive Guidelines on www.ndls.ie.**
